Spring HESA Practicum Sites

If your department/office is interested in hosting a practicum, please complete this form.

Practicum experiences are an essential part of the Higher Education in Student Affairs master’s program curriculum. During the second semester of their first year & first semester of their second year, HESA students complete a 140 hour practicum to further their experiences in the field. These experiences help students connect theory to practice & better understand the many functions and services that different college and university offices provide.

For more information, visit: hesa.uconn.edu/practicum-resources/ or email adam.mccready@uconn.edu.
